## **INTRODUCTION**

---

The term of the twelfth Legislative Assembly of the Northwest Territories, elected in October 1991, ended on August 31, 1995. The Commissioner of the Northwest Territories directed writs ordering a general election for members of the 13th Legislative Assembly to be issued on September 1, 1995, and to be made returnable on November 15, 1995. The election period lasted 45 days.

### **ELECTORAL DISTRICTS**

The electoral district boundaries for 1995 reflected changes made by the Legislative Assembly after its review of the report of the Electoral District Boundaries Commission 1993/94. These changes realigned the boundaries of six of the 24 electoral districts to conform with the boundary that will divide the Northwest Territories into two jurisdictions in 1999. The districts affected by boundary changes were High Arctic, Kitikmeot, Nunavut, Sahtu, North Slave and Tu Nedhé.

### **ELECTORS**

Canadian citizens 18 years of age or older on polling day, October 16, 1995, who had lived in the Northwest Territories since October 16, 1994, were eligible to vote in the territorial election. For the first time, new amendments to the Northwest Territories *Elections Act* made enumeration possible outside the electoral period, resulting in a more efficient process. Enumeration took place in May 1995, and a total of 31 407 electors were registered on the preliminary lists. Also for the first time, the preliminary voters lists were prepared from a computerized data base using software that Elections Canada developed for the 1993 federal general election and adapted for use in the Northwest Territories.

The preliminary voters lists were on display in each riding. Eligible citizens whose names did not appear on the lists could apply to the returning officer for their electoral district before September 27 to have their names added. Voters whose names were on the lists by September 27 could vote in person or by proxy. Those who missed the deadline could still register in person to vote at the advance polls or on polling day, but could not vote by proxy. The names of 2 436 electors were added during revision and 180 were removed. The total of 33 978 names on the official lists of electors includes 135 incarcerated electors and the 1 401 electors registered in Nahendeh, where the candidate was elected by acclamation.

## CANDIDATES

Nomination day at the general election was Monday, September 18, 1995. A record 93 residents of the Northwest Territories declared their candidacy. Two candidates withdrew before the deadline of 8:00 p.m. on nomination day and their names did not appear on the ballot papers. At the 1991 general election, 84 candidates were nominated and six were elected by acclamation. All candidates in the Northwest Territories run independently of political parties.

## VOTING

One candidate having been elected by acclamation in the electoral district of Nahendeh, a poll was held on October 16, 1995, in each of the remaining 23 electoral districts. An advance poll was held on October 5, 1995. Voting took place at 35 advance polling stations, 123 regular polls and two mobile polls, one each in the electoral districts of Amittuq and Kitikmeot. Amendments to the Northwest Territories *Elections Act* in 1995 created a mechanism that enabled incarcerated electors to vote for a candidate in their home riding for the first time in this general election, and 135 did so. Their votes are included in the totals for advance poll voting in their home ridings.

Automatic judicial recounting of the votes took place in the electoral districts of Amittuq, Yellowknife South and Yellowknife Centre. Under section 137 of the Northwest Territories *Elections Act*, the returning officer must apply to a judge for a recount if the tally of votes separating the candidate receiving the highest number of votes and any other candidate is less than 2% of the total votes cast in the electoral district. The results of voting after the votes were recounted remained the same in the two Yellowknife districts and changed by three votes in Amittuq; however, the recount did not alter the election results.

## REPORTING

The preliminary results were published after 8:00 p.m. on October 16 on Internet, and were displayed there until the publication of this report. This information was accessed some 15 000 times, most often in the two weeks following election day. The first official return was published in the *Northwest Territories Gazette* on October 27, 1995 and the last return was published on November 17, 1995.

This report on the complete poll-by-poll results of voting in the 1995 general election is published in accordance with subsection 162(a) of the *Elections Act* of the Northwest Territories.

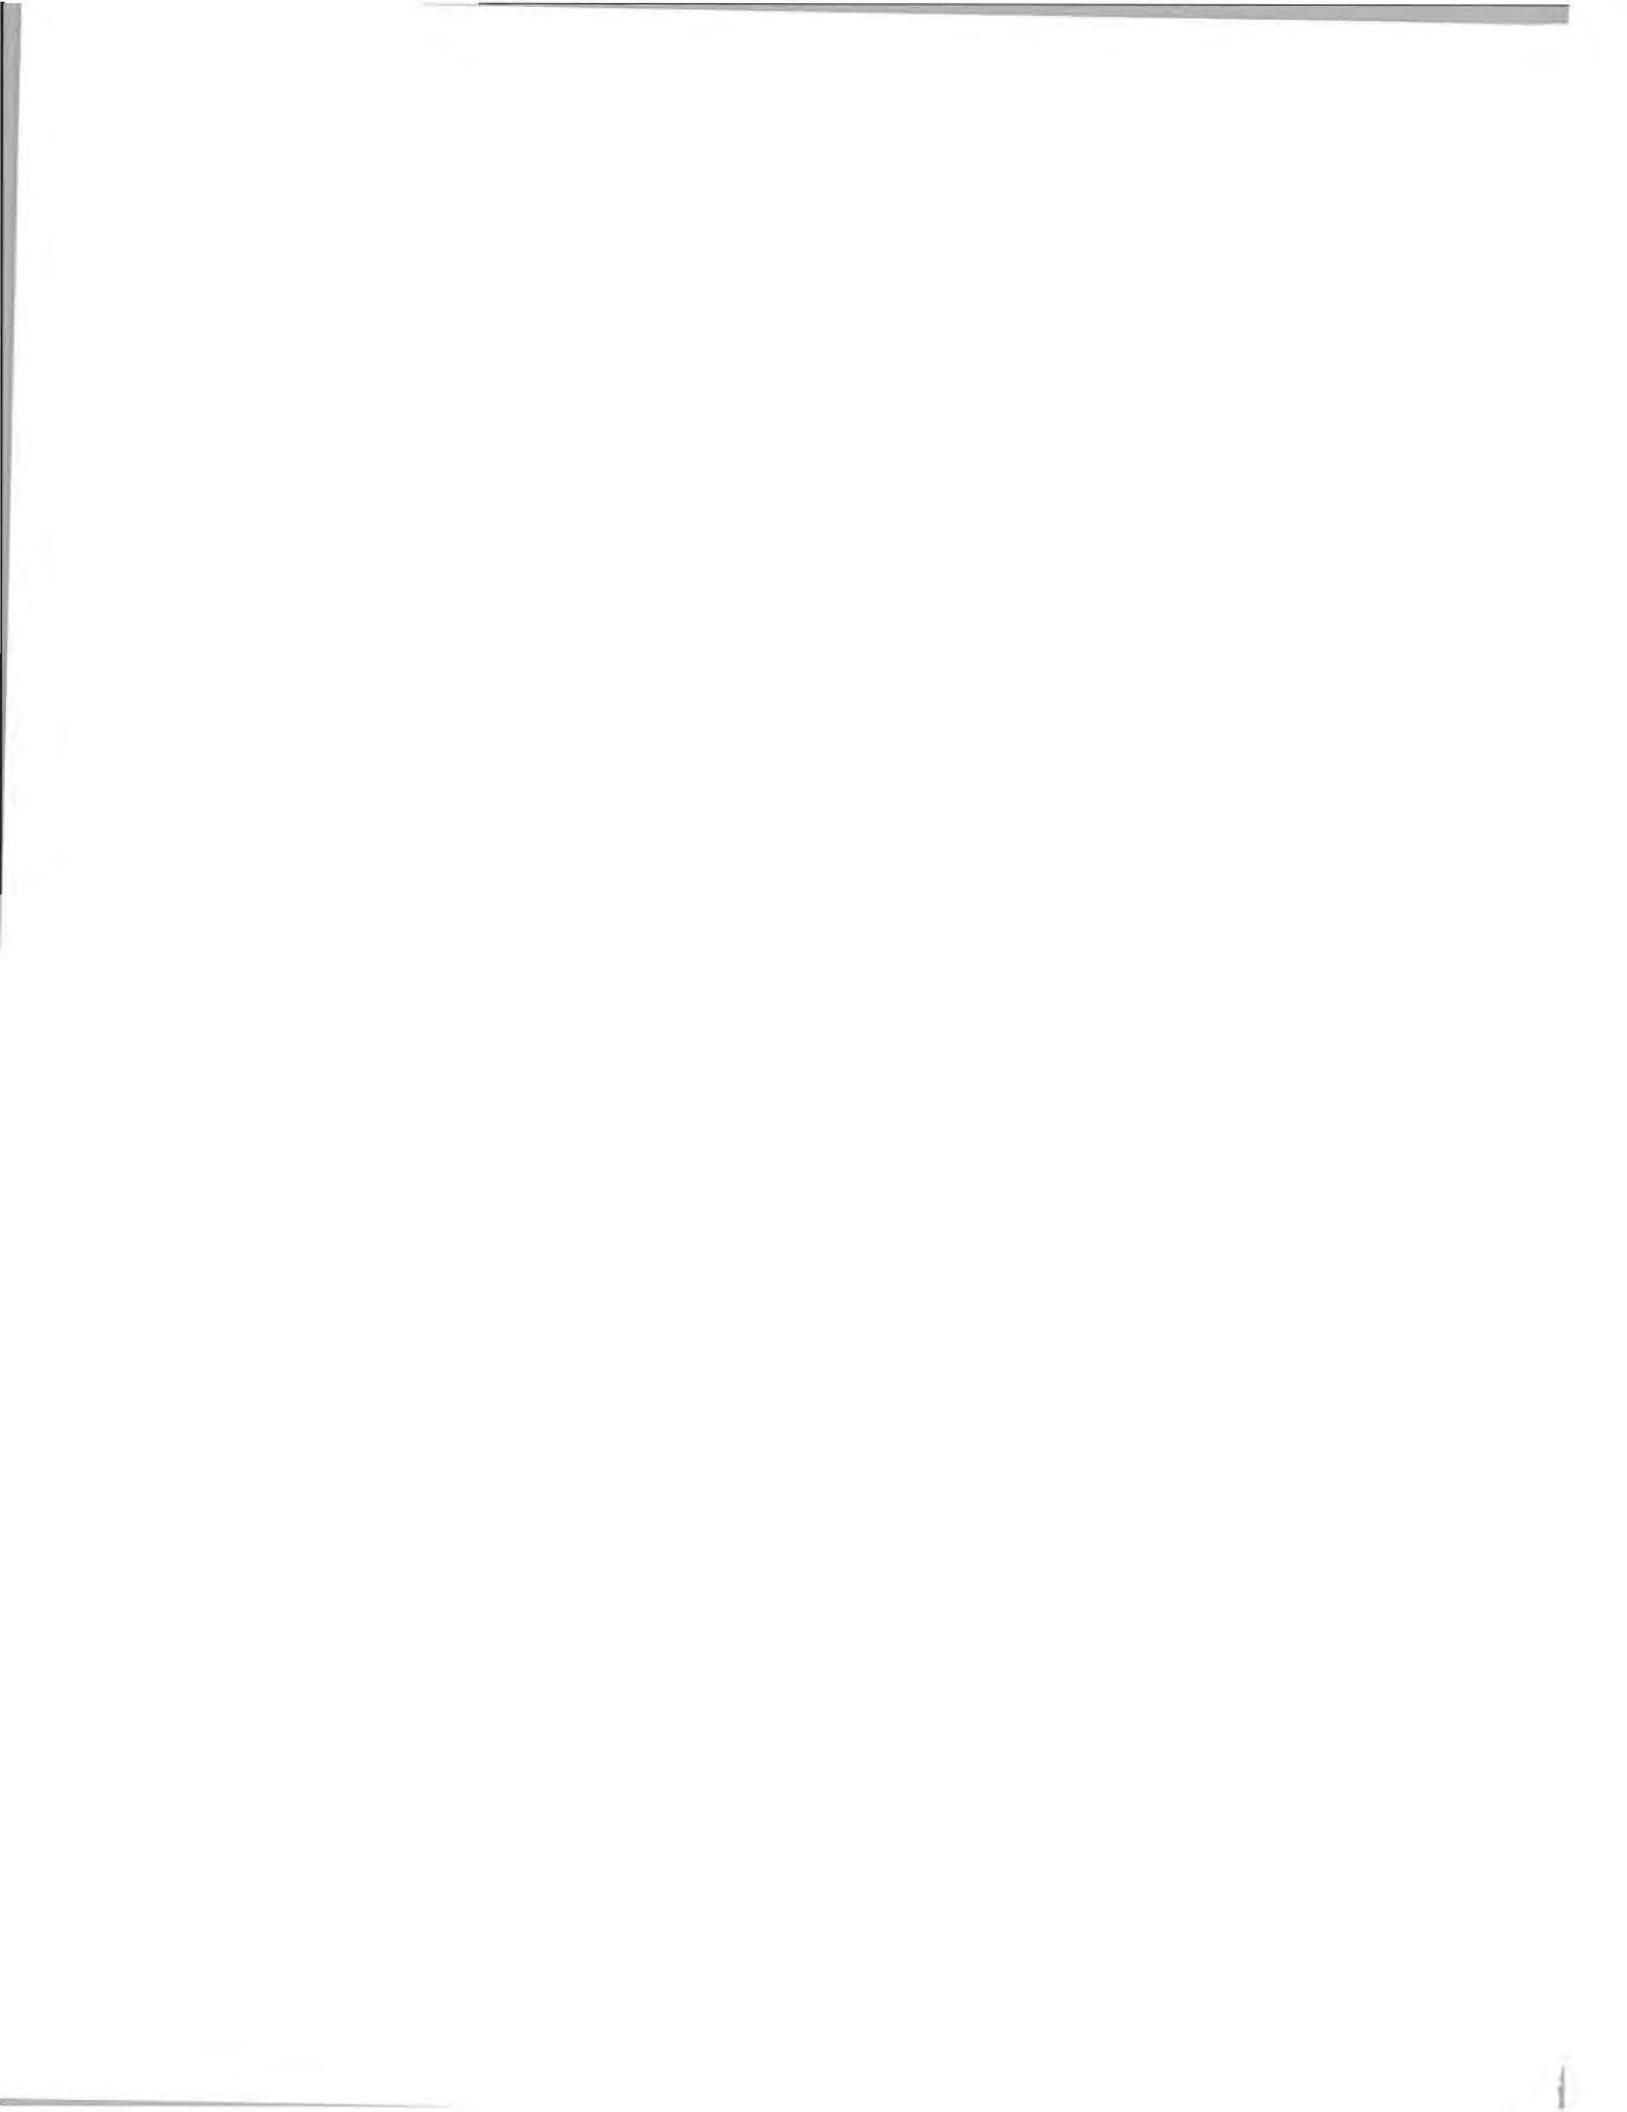

## BY-ELECTION, MAY 1995

Due to the resignation of James Arvaluk, Member for the electoral district of Aivilik, on February 20, 1995, a by-election was held in that electoral district on May 8, 1995. The elected candidate, Manitok Bruce Thompson, served until the dissolution of the Legislative Assembly. The poll-by-poll results of voting in that by-election are published in this report in accordance with subsection 162(b) of the *Elections Act* of the Northwest Territories.

\*NOTE: An elector may vote even if his or her name is not on the official list of electors, as long as that elector completes an application for registration at the advance or ordinary polls. It is, therefore, possible for the total number of votes cast in any electoral district to exceed the number of names on the official list of electors. Similarly, the column headed 'Total votes as percentage of electors on lists' may include electors who were sworn in at the advance or ordinary polls; this column should, therefore, be used only as a rough guide to voter turnout.

# **INTRODUCTION**

Élué en octobre 1991, la douzième Assemblée législative des Territoires du Nord-Ouest a été dissoute le 31 août 1995. Le commissaire des Territoires du Nord-Ouest a, le 1<sup>er</sup> septembre suivant, délivré les brefs ordonnant la tenue d'une élection générale pour choisir les membres de la treizième Assemblée législative, brefs devant être retournés le 15 novembre 1995. La période électorale s'est échelonnée sur 45 jours.

## **CIRCONSCRIPTIONS ÉLECTORALES**

Les limites des circonscriptions électORALES pour cette élection générale correspondaient aux nouvelles limites décrétées par l'Assemblée législative, à la suite de l'exercice de redécoupage entrepris en 1993-1994 par la Commission de révision des circonscriptions électORALES. Six des 24 circonscriptions, soit Extrême Arctique, Kitikmeot, Nunakput, Sahtu, Slave Nord et Tu Nedhé, avaient été remaniées afin de prendre en compte la nouvelle frontière qui scindera les Territoires du Nord-Ouest en deux entités distinctes, en 1999.

## **LES ÉLECTEURS**

Tout citoyen canadien âgé d'au moins 18 ans le jour du scrutin, le 16 octobre 1995, et ayant habité les Territoires du Nord-Ouest depuis au moins un an avant cette date, avait droit de vote aux élections territoriales. Grâce aux récentes modifications apportées à la *Loi électorale* des Territoires du Nord-Ouest, le recensement s'est tenu pour la première fois en dehors d'une période électorale, ce qui aura permis d'améliorer le processus d'inscription des électeurs. Le recensement s'est déroulé en mai 1995; 31 407 électeurs ont été inscrits sur les listes préliminaires au terme de cette opération. Ces listes ont été confectionnées à l'aide d'une base de données, autre première aux T.N.-O., grâce à un programme informatique qu'Élections Canada avait mis au point pour l'élection fédérale générale de 1993 et qu'il a adapté pour les élections territoriales.

Les listes préliminaires étaient affichées dans chaque circonscription. Les citoyens habilités à voter dont le nom ne figurait pas sur ces listes avaient jusqu'au 27 septembre pour demander à être inscrits auprès du directeur du scrutin de leur circonscription. Ceux inscrits avaient également jusqu'au 27 septembre 1995 pour voter en personne ou par procuration. Après cette date, un électeur pouvait toujours s'inscrire en personne à l'un des bureaux spéciaux de scrutin ou le jour même du scrutin, mais il lui était par contre impossible de voter par procuration. Durant la période de révision, 2 436 noms ont été ajoutés aux listes et 180 noms ont été radiés. Les listes officielles comptaient 33 978 noms, y compris 135 électeurs incarcérés et 1 401 électeurs dans la circonscription de Nahendeh, dont le candidat a été élu par acclamation.

## **LES CANDIDATS**

Le lundi 18 septembre 1995 était le jour de clôture des présentations. Un nombre record de 93 personnes avaient déposé leur bulletin de présentation à la clôture. Deux candidats se sont désistés avant l'heure limite, fixée à 20 h le jour des présentations. Par conséquent, leur nom ne figurait pas sur les bulletins de vote. En comparaison, 84 candidats avaient brigué les suffrages à l'élection générale de 1991 et six avaient été élu par acclamation. Tous les candidats dans les Territoires du Nord-Ouest se présentent comme indépendants.

## LE VOTE

Un seul candidat s'étant présenté dans la circonscription de Nahendeh, d'où son élection par acclamation, le vote s'est tenu le 16 octobre 1995 dans les 23 autres circonscriptions électorales. Une journée avait été réservée au vote par anticipation, soit le 5 octobre 1995. Le scrutin s'est déroulé dans 35 bureaux spéciaux de scrutin, 123 bureaux ordinaires et deux bureaux itinérants, l'un dans la circonscription d'Amittuq et l'autre dans Kitikmeot. En vertu de modifications apportées en 1995 à la *Loi électorale* des Territoires du Nord-Ouest, un mécanisme de vote permettait pour la première fois aux électeurs incarcérés d'exprimer leur suffrage en faveur d'un candidat se présentant dans leur circonscription : 135 électeurs se sont prévalués de ce nouveau mécanisme. Leur vote a été compté, dans leur circonscription, avec les bulletins provenant du vote par anticipation.

Trois recomptages automatiques ont eu lieu dans les circonscriptions d'Amittuq, Yellowknife Sud et Yellowknife Centre. En vertu de l'article 137 de la *Loi électorale* des Territoires du Nord-Ouest, le directeur du scrutin doit faire appel à un juge pour procéder à un recomptage si le nombre de votes séparant le candidat qui a reçu le plus grand nombre de voix de tout autre candidat est inférieur à 2 % du total de bulletins déposés dans la circonscription électorale. À la suite de ces recomptages, les résultats sont demeurés inchangés dans les deux circonscriptions de Yellowknife et ont été modifiés par trois voix dans Amittuq, sans toutefois que ce recomptage remette en cause l'issue même de l'élection.

## RAPPORTS DES RÉSULTATS

Les résultats préliminaires ont été diffusés à compter de 20 h le 16 octobre 1995 dans le réseau Internet et y ont été affichés jusqu'à la publication du présent rapport. Plus de 15 000 accès au site d'Internet ont été enregistrés dans les deux semaines suivant le jour du scrutin. Le premier résultat officiel a été publié dans la *Gazette des Territoires du Nord-Ouest* le 27 octobre 1995 et le dernier, le 17 novembre 1995.

Le présent rapport donnant les résultats officiels par bureau de scrutin pour l'élection générale de 1995 est publié conformément au paragraphe 162a) de la *Loi électorale* des Territoires du Nord-Ouest.

## ÉLECTION PARTIELLE DE MAI 1995

En raison de la démission du député d'Aivilik, James Arvaluk, survenue le 20 février 1995, une élection partielle s'est tenue dans cette circonscription le 8 mai 1995. Le candidat élu, Manitok Bruce Thompson, a occupé son siège jusqu'à la dissolution de l'Assemblée législative. Les résultats par bureau de scrutin de cette élection partielle figurent dans le présent rapport, conformément au paragraphe 162b) de la *Loi électorale* des Territoires du Nord-Ouest.

\*REMARQUE : Un électeur peut voter même si son nom ne figure pas sur la liste officielle des électeurs; cette personne doit cependant compléter un formulaire d'inscription aux bureaux spéciaux ou ordinaires de scrutin. Il est donc possible que le nombre total de votes déposés dans une circonscription dépasse le nombre de noms sur la liste officielle des électeurs. Pour cette même raison, la colonne intitulée 'Total des votes en pourcentage du nombre d'électeurs inscrits' peut inclure des électeurs qui ont été assermentés aux bureaux spéciaux ou ordinaires de scrutin; cette colonne doit être utilisée avec réserve relativement à la participation électorale.
